

Who is under our Carbon Footprint?

The environment is God's gift to everyone, and in our use of it we have a responsibility towards the poor, towards future generations and towards humanity

as a whole.

We pray for your wisdom, to safeguard the earth, the soil and all that grows in it.

Lord hear our prayer.

We pray for knowledge to find ways to preserve our waters and all that live in them. **Lord hear our prayer**

We pray for Compassion to reach out to all those affected by extremes of weather, changes in Climate and the degradation of the environment. **Lord hear our prayer.**
